First offshore helicopter operator in the Gulf of Thailand.

approved for stretcher installation from CAAT.

TAS received official approval to install stretchers on the helicopter, AW139.

This milestone marks a significant advancement in offshore safety response capabilities, setting a new standard of care for crew and passengers in the Gulf of Thailand.:

The approval for stretcher installation signifies a proactive approach by THAI AVIATION SERVICES to enhance emergency medical services procedures.

With this development, becomes the first operator in the Gulf of Thailand to offer this vital capability, underscoring its commitment to safety, reliability, and customer satisfaction.

The approval process for stretcher installation involves rigorous adherence to safety standards and regulations set forth by aviation authorities.

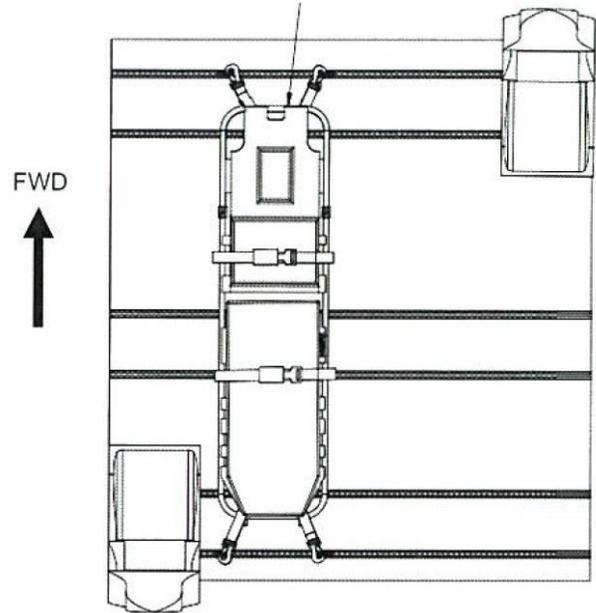

TAS has demonstrated its dedication to upholding the highest safety standards.
